Importing Data Report

Summary

- Total # Errors: 955
- Total # Successful Inserts: 4,999,281
- Total # Errors that were Successfully Inserted after cleaning up the record: 237
 - Records with an extra comma at the beginning & foreign character errors were cleaned up and inserted
- Total # Successful Inserts without any errors: $4,999,281 - 237 = 4,999,044$
- Total # Errors that were not inserted: $955 - 237 = 718$
- Total # Records: 4,999,281 successful inserts + 718 errors = 4,999,999

Error Types

- 10 Total Error Types Identified

```
SELECT errors.error_type_num, error_types.error_type_name, COUNT(errors.error_type_num) AS COUNT
FROM errors
```

```
JOIN error_types ON error_types.error_type_num=errors.error_type_num
```

```
GROUP BY errors.error_type_num
```

```
ORDER BY `errors`.`error_type_num` ASC;
```

error_type_num	error_type_name	COUNT
1	blank	145
2	duplicate	140
3	extra comma	77
4	foreign character	160
5	missing device type	152
6	missing manufacturer	139
7	missing serial num	142

Error Line #s

```
SELECT errors.error_num, error_types.error_type_name, errors.line_num FROM errors
```

```
JOIN error_types ON error_types.error_type_num=errors.error_type_num ;
```
